Man City Analytics

Kostis Boukouvalas,

Some ideas.

Match Preview (Analytical)

Predicted XIs

- Team news
- Opponent's news

Missing players

- Injuries
- Yellow/Red Cards
- Other reasons

Last matches

- Last 5 matches scores
- Key analytics from last matches

Match Preview (Betting)

Odds

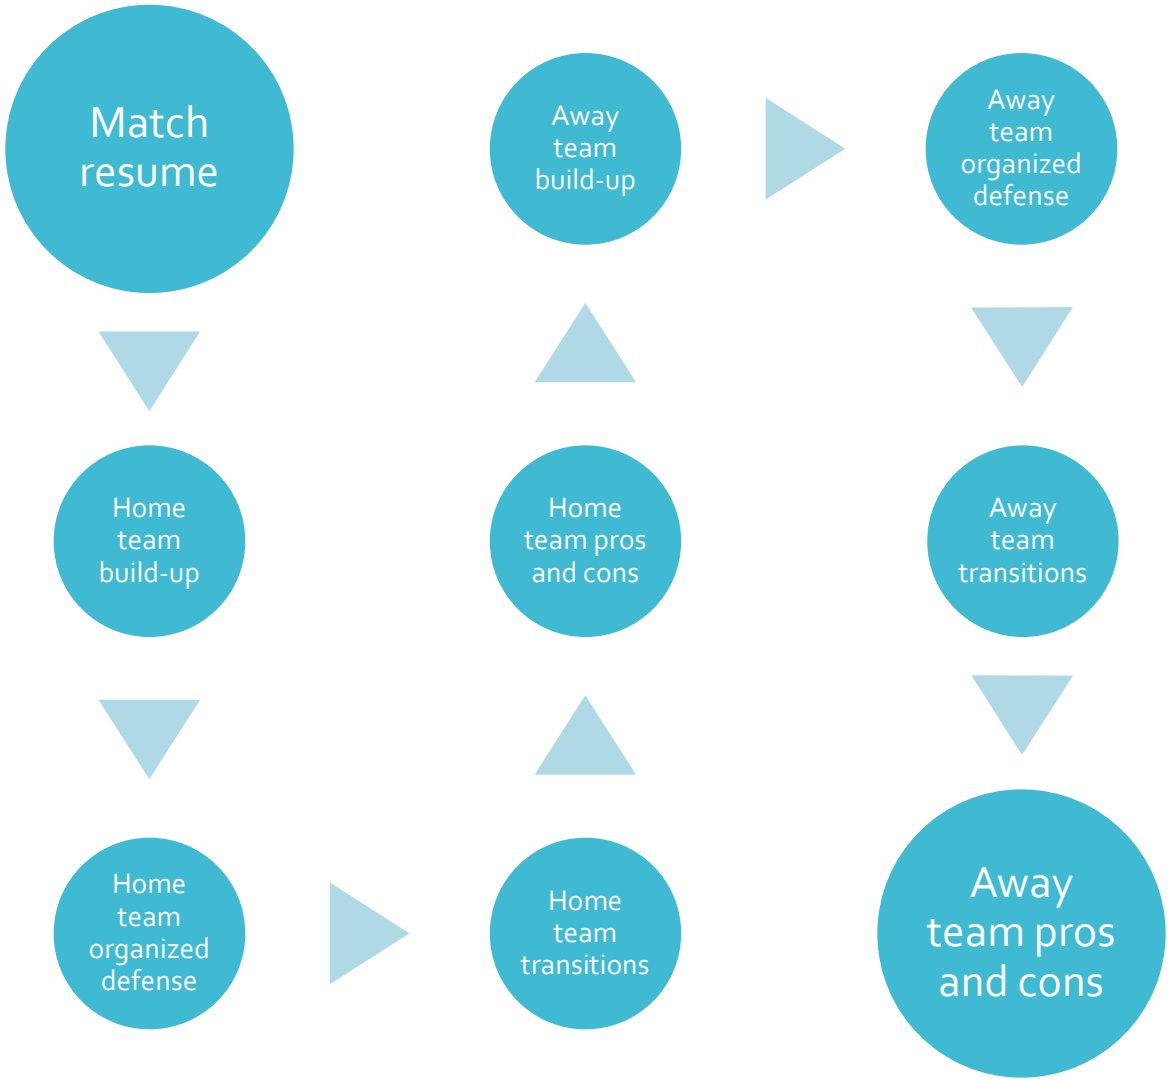
Form

Stats *(Goals per 90'/ xGoals per 90'/ xGoals per specific minutes etc.)*

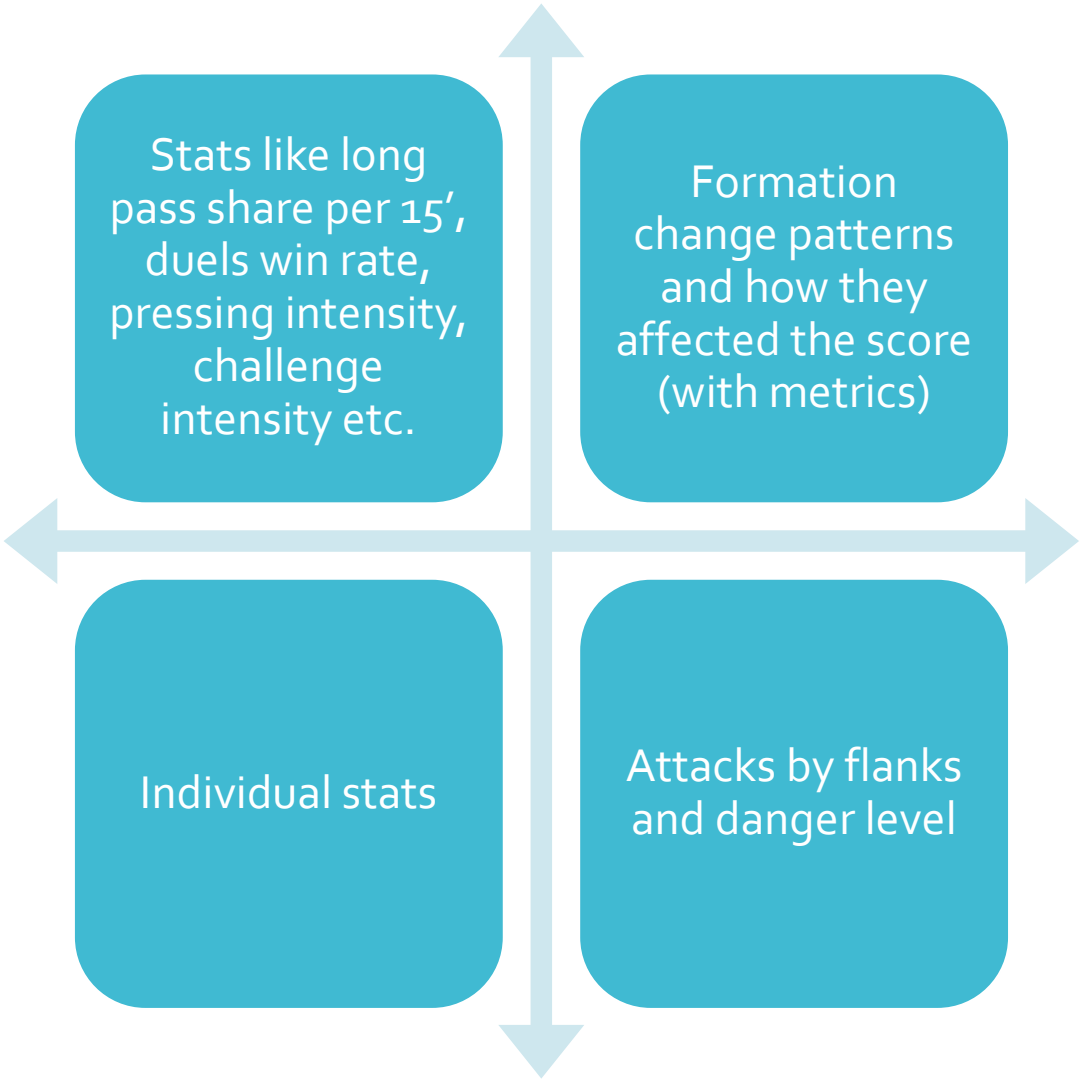
Coach and opponent's philosophy

Predictions

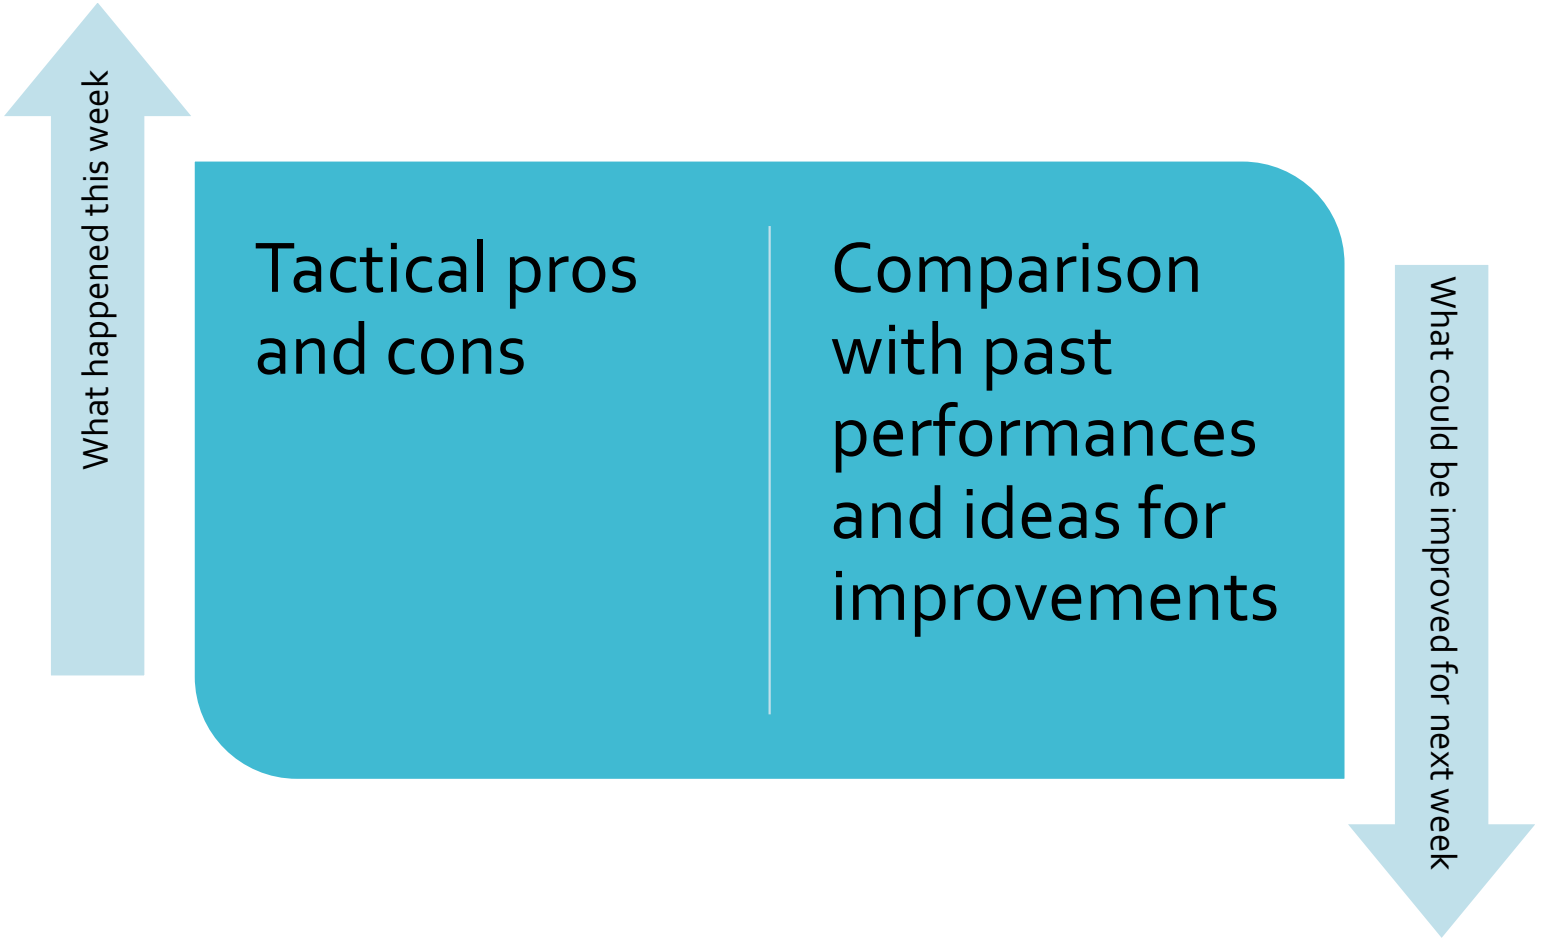
Post-match Analysis (Tactical & Video)



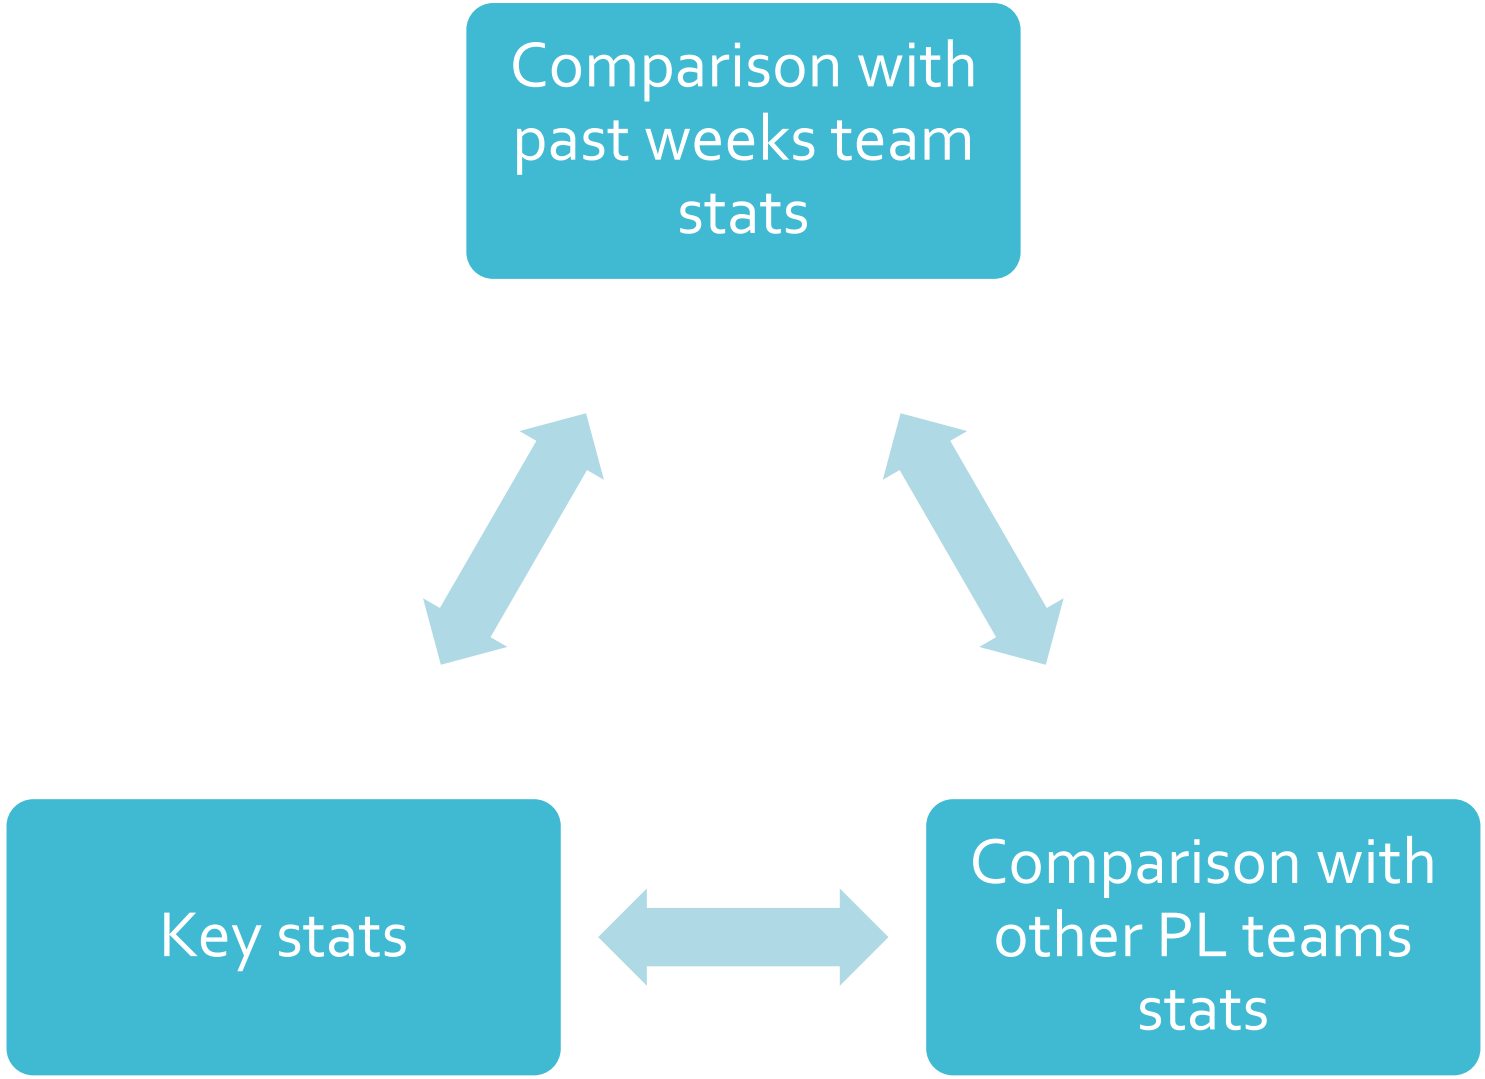
Post-match Analysis (Data/Stats Visualization)



Weekly Tactical Performance Overview (Team)



Weekly Statistical Overview (Team)

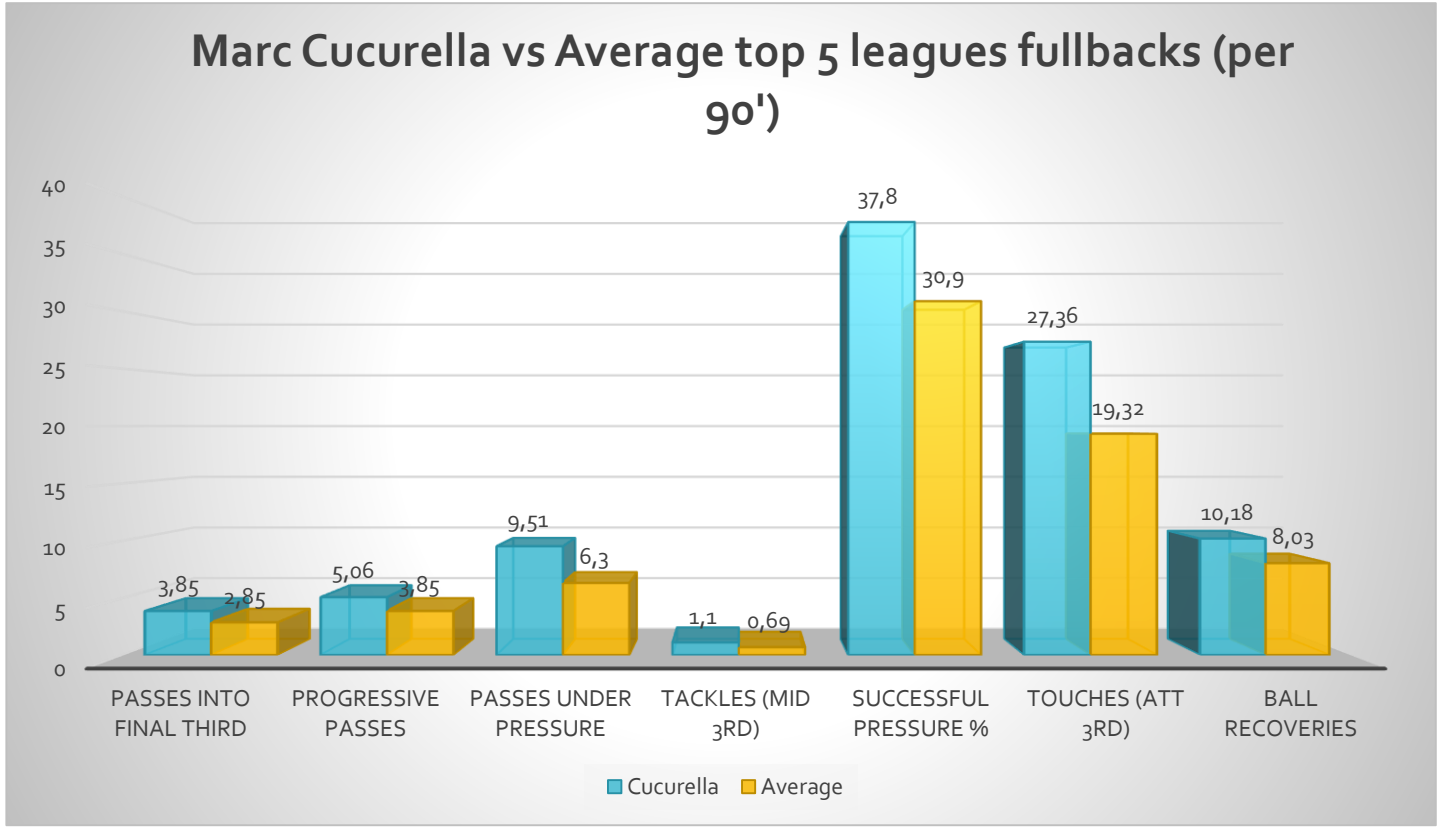


Weekly Player Performance Overview (Stats/Data)

- Key data that affected team
- Comparison with PL players (same position)
- Comparison with top 5 leagues players (same position)

Example for a player's data overview (can be used for weekly demands or for recruitment analysis)

Potential Man City new fullback Marc Cucurella



Preferences

I feel more confident in :

- Match preview (Betting)
- Post match analysis (tactical and video) [for the video depends on the software]
- Post-match analysis (Data/Stats visualization)
- Possible recruitment analysis
